The CLEAR Audit

Abstract

The CLEAR Audit is a no-fluff delivery health check for Tier 2/3 aerospace and defence suppliers.

In one week, we uncover what's stalling progress, where risk is hiding, and what it'll take to get your delivery programme back on track — fast.

The CLEAR Audit – OAEI

Clarity. Leadership. Execution. Accountability. Risk.

We help aerospace and defence suppliers recover late-stage delivery before missed milestones become missed contracts.

Our signature 2-week diagnostic, the CLEAR Audit, is designed to bring order to delivery chaos. It gives programme leaders fast insight, actionable recommendations, and confidence to act.

What You Get

- Onboarding + Kick-off call with your sponsor
- Confidential 1:1 interviews with internal team and customer rep (optional)
- Full delivery risk assessment across CLEAR pillars
- Executive summary with traffic-light (RAG) scorecard
- 3–5 priority recommendations to stabilise delivery
- Optional midpoint check-in to align on emerging risks

Who It's For

Tier 2/3 aerospace and defence suppliers under pressure to recover delivery performance and protect customer confidence.

What Comes Next

Our audits often lead to short-term tactical support, supplier triage, or retained delivery leadership—but only if value is proven and trust is built.
